

LUNCH & LEARN: Reducing Plastics

Wednesday April 18th, 12–1:30pm

Join us for an engaging Lunch & Learn at The Food Co-op Annex for an opportunity to understand the complex nature of plastics in our lives.

We will address a number of questions:

- How can we reduce the plastics we use?
- Are there practical alternatives?
- When we put plastic in the recycling, where does it go?
- Why don't we recycle all plastics in Jefferson County?

We will answer these questions and more while learning how the Co-op supports our desire to reduce, reuse and recycle.

Class held at The Food Co-op Annex
1220 Lawrence St., Port Townsend WA 98368

FREE TALK!
